to me

Hi Alex,

It was great meeting you yesterday. I've run the numbers for your full roof replacement.

The total cost for the project will be **\$12,000** flat. This covers absolutely everything we discussed:

- Obtaining the municipal building permits in MA.
- Complete tear-off of the old asphalt shingles down to the decking.
- Replacement of up to 3 sheets of rotted plywood if we find any.
- Premium Ice & Water shield (6 ft up the eaves, mandatory for MA winter codes).
- Installation of Premium Architectural Asphalt Shingles (lifetime warranty).
- All edge metal, underlayment, and continuous ridge ventilation.

I will send over the formal PDF estimate shortly, but I wanted to give you the bottom line first. Let me know what you think!

Best regards,

Mike Davis

to Mike

Hi Mike,

Thanks for getting back to me so quickly. \$12,000 sounds reasonable and fits our budget.

I just have a couple of quick questions before we sign anything: Does this \$12,000 include the dumpster rental and hauling away all the old materials? Also, how soon can your crew start, and how many days will the replacement take?

Thanks,
Alex

Hi Alex,

Great questions!

Yes, absolutely. The \$12,000 is the final "out-the-door" price. It includes all dumpster fees, daily site cleanups, and a final magnetic sweep of your yard for stray nails. There are no hidden fees or extra disposal charges.

As for the timeline, we are currently booking out for mid-August (roughly starting around Aug 15th, depending on rain). Once we drop the dumpster and start tearing off, the whole job usually takes 2 to 3 consecutive days.

If you're ready to move forward, let me know and I'll email over the contract and the formal proposal for you to sign electronically.

Best,

Mike
